7. **Notice of Motion.**

A Notice of Motion having been submitted in accordance with Standing Order 18, Councillor Julie Dettbarn, seconded by Councillor Peter Henderson, moved:-

“To propose that South Ayrshire Council calls upon the United Kingdom Government to make fair transitional state pension arrangements for all women and for the purposes of this Motion, specifically on behalf of those living in South Ayrshire, born on or after 6th April 1951, who have unfairly borne the burden of the increase to the State Pension Age (SPA) with lack of appropriate notification.
Hundreds of thousands of women had significant pension changes imposed on them by the Pensions Acts of 1995 and 2011 with little or no personal notification of the changes. Some women had only two years notice of a six-year increase to their state pension age.

Many women born in the 1950’s are living in hardship. Retirement plans have been shattered with devastating consequences. Many of these women are already out of the labour market, caring for elderly relatives, providing childcare for grandchildren, or suffer age discrimination in the workplace so struggle to find employment.

Women born in this decade are suffering financially. These women have worked hard, raised families and paid their tax and national insurance with the expectation that they would be financially secure when reaching 60. It is not the pension age itself that is in dispute – it is widely accepted that women and men should retire at the same time.

The issue is that the rise in the women’s state pension age has been too rapid and has happened without sufficient notice being given to the women affected, leaving women with no time to make alternative arrangements.

Council agrees to request the Chief Executive to write in terms as outlined above, on behalf of the Council, to the Secretary of State for Works and Pensions to call upon the United Kingdom Government to reconsider transitional arrangements for women born on or after 6th April 1951, so that women do not live in hardship due to pension changes they were not told about until it was too late to make alternative arrangements.”

Council considers that the problems caused by FOBTs have a disproportionately negative impact on less affluent communities, further compounding the challenges of poverty and deprivation our administration aims to address.
Council believes the UK government must take action to tackle FOBTs, including by reducing the number of terminals allowed in betting shops, limiting the stakes that can be bet, reducing the time that can be spent on the machines, and taking action to ban the machines altogether if people continue to lose out. In order to make clear our position the Chief Executive will write to Chancellor Philip Hammond requesting that he gives full consideration to addressing the impact FOBTs have on our communities.
